B'Art Center Hosts to Host Exhibition of the Fermata Arts Foundation

Fermata Arts Foundation (FAF) is a non-profit organization located in Avon, Connecticut, USA. It will be holding an international exhibition of children's art that has been endorsed by UNESCO, in B'Art Center in Bishkek, Kyrgyzstan from January 22nd to February 22nd , 2011.

The overall mission of the Fermata Arts Foundation (FAF) is to aid in the preservation of peace through mutual respect, understanding and cooperation. The model for achieving this is through the synthesis of art, architecture, philosophy and poetry. The Corporation exists to promote and encourage true intercultural dialogue between countries, through which the representatives of different countries can discover shared values and spiritual commonality (www.fermata-arts.org).

This exhibition is planned to include the works from the following projects of the Fermata Arts Foundation:

- “Ideal House” an exchange program of children’s drawings.

Children's drawing were never considered as serious work for reflection by a society. Since the Middle Ages – when painting tended towards an allegorical interpretation of objects – representative art has elaborated a language of symbols, using which an author could fit his idea into the strict frame of permissible topics.

School-participants are:
