Fermata Arts Foundation Mission

The overall mission of the Fermata Arts Foundation (FAF), a non-profit organization in Connecticut, USA is to aid in the preservation of peace through mutual respect, understanding and cooperation. The model for achieving this is through the synthesis of art, architecture, philosophy and poetry. The Corporation exists to promote and encourage true intercultural dialogue between countries, through which the representatives of different countries can discover shared values and spiritual commonality (www.fermata-arts.org)

Peace in the world is a system. FAF goal is to keep this system through a dialogue with countries of the post-soviet space (PSS). Models of this dialogue are synthesis of art, architecture, philosophy and poetry. Deeper penetration of systems thinking through dialogue in thinking of the representatives of different countries provides a basis for a new position of keeping peace in the world.
